

LEAF MOBILE ANNOUNCES FOURTH QUARTER AND FULL YEAR 2020 FINANCIAL RESULTS

Vancouver, BC, April 29, 2021 – LEAF Mobile Inc. (TSX: LEAF) ("**LEAF**" or the "**Company**"), Canada's leading free-to-play mobile game group, today announced financial results for the fourth quarter and full year ended December 31, 2020. East Side Games Inc. ("**ESG**"), which was acquired by the Company subsequent to the year end on February 5, 2021, also announced its full year 2020 results which can be found on SEDAR.

Combined, LEAF and ESG generated:

- **Revenue of \$80.5M in 2020 a 116% increase over \$37.2M recorded in 2019**
- **Adjusted EBITDA was \$11.2M, a 187% increase compared to \$3.9M in 2019**
- **Record Q4 revenue was \$23.0M, a 104% increase vs. \$11.3M in Q4 2019**

"We had a strong finish to what was a transformational year in 2020 and were delighted to close the ESG acquisition in early February. On a Combined view we doubled our revenue and nearly tripled our Adjusted EBITDA compared to 2019. I'm proud of the team at LEAF for executing on our vision even as the world navigated uncharted territory. We have been carrying the momentum we built in 2020 into the new year with the signing of a number of IP, IdleKit and publishing agreements and continue to finalize the Truly Social Games acquisition," said Darcy Taylor, Chief Executive Officer of LEAF. "We remain relentlessly focused on our three-pillar growth strategy: Organic growth from game development and publishing, distributed growth with our core technology platform "IdleKit", and accretive growth from M&A."

In the quarter ended June 30, 2020, LEAF completed its qualifying transaction, which included its acquisition of LDRLY (Technologies) Inc. ("**LDRLY**"). On completing its qualifying transaction, LDRLY became LEAF's operating entity, through which all primary operations are conducted. As such, though the consolidated financial statements reflect the financial performance of LEAF alone for the period leading up to April 17, 2020 and the combined financial performance of LEAF and LDRLY thereafter, the MD&A includes disclosure and analysis of LEAF and LDRLY's combined operations for the entire year ended December 31, 2020. All the following references to the fourth quarter and full year financial results for the Company will be based on pro forma combined operations of LEAF and LDRLY as if the acquisition occurred on January 1, 2020.

Non-GAAP Measures - EBITDA and Adjusted EBITDA

We believe that, in addition to conventional measures prepared in accordance with IFRS, the Company and certain investors use Adjusted EBITDA as an indicator of our ability to generate liquidity by producing operating cash flow to fund working capital needs and fund development expenditures.

Adjusted EBITDA is intended to provide additional information to investors and analysts and do not have any standardized definition under IFRS, and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Adjusted EBITDA excludes the impact of cash costs of financing activities and taxes, and the effects of changes in operating working capital balances, and therefore is not necessarily indicative of operating profit or cash flow from operations as determined under IFRS. Other companies may calculate Adjusted EBITDA differently.
